

# JIRA

## Agile Terminologies used in Jira

## Agile Terminologies used in Jira

## Agile Terminologies used in Jira

Product Owner

- Understands the requirement of the customer
- Great vision for the final product
- Balances the need of other stakeholders
- Maintains the product backlog
- Release management

### Scrum Master

- Responsible for gluing everything together
- Sometimes act as intermediary between the product owner and dev team
- Helps in planning and breaking down work
- Manages backlog, ensures completion
- Ensures transparency

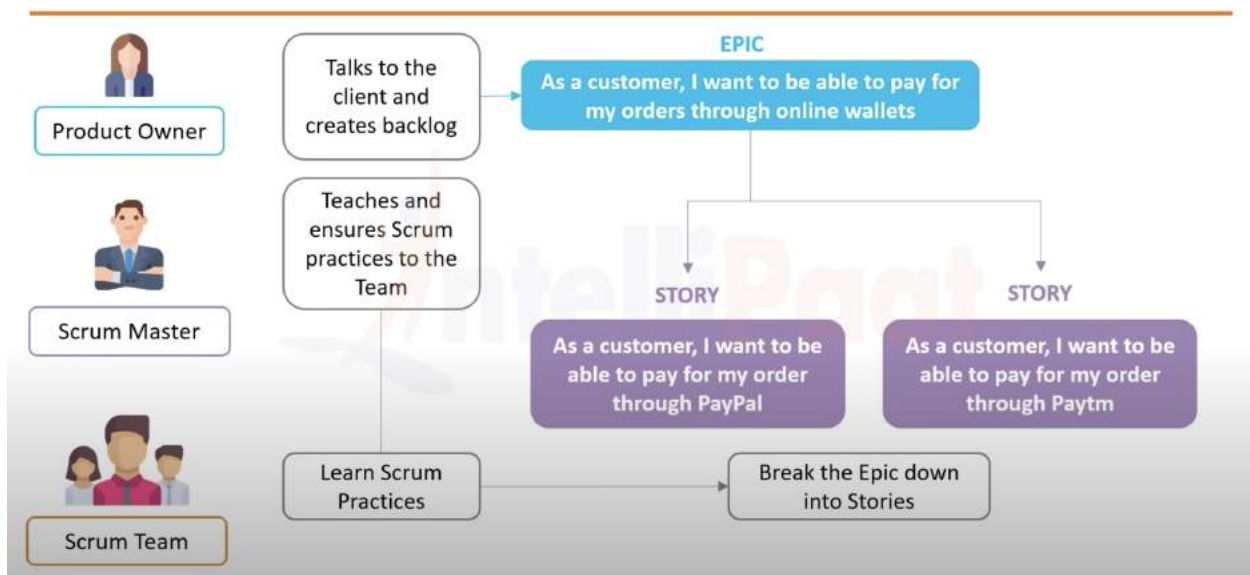

## Agile Scrum Roles

---

### Scrum Team

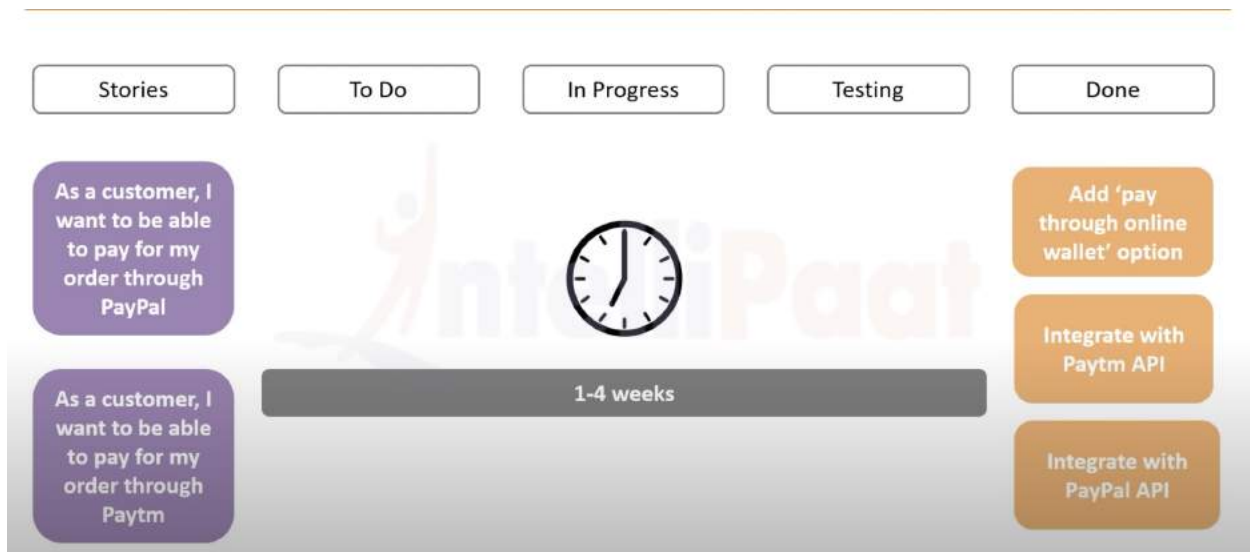

- Consists of Software Developers & Quality Assurance
- Break down the work into subtasks
- Deal with the planning, implementation, testing and preliminary reviewing of goals
- Ensure timely delivery, with quality assurance
- Communicate their progress with the Scrum master

## Scrum Sprint Activities

## Scrum Sprint Activities:

## What is JIRA:

Jira is a project management tool and an issue tracker developed by Atlassian

Bug Tracking

Agile  
Project Management

Why JIRA?

Jira is an all-in-one solution for multiple software and team related use cases

Creating Backlogs

Creating Sprints

Creating Tasks

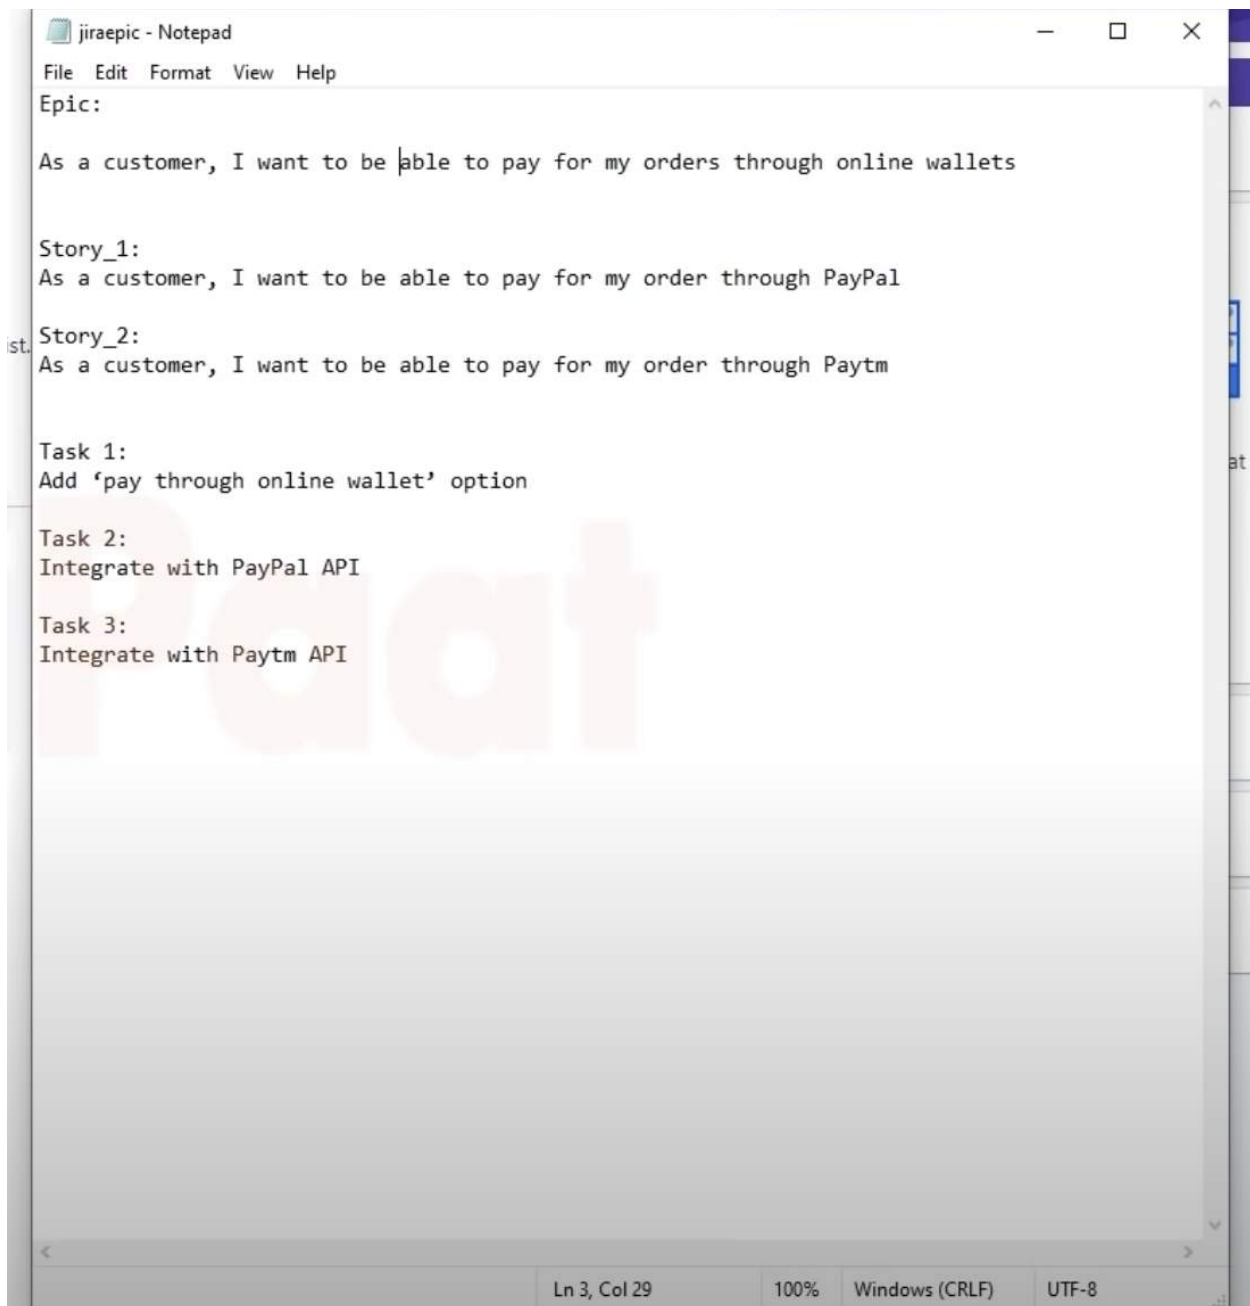

Updating status on the board

Managing releases

Code integration

Managing workflows

JIRA Kickstart:

The image shows a Notepad window titled "jiraepic - Notepad" with a menu bar containing "File", "Edit", "Format", "View", and "Help". The text inside the window is as follows:

```
Epic:  
  
As a customer, I want to be able to pay for my orders through online wallets  
  
Story_1:  
As a customer, I want to be able to pay for my order through PayPal  
  
Story_2:  
As a customer, I want to be able to pay for my order through Paytm  
  
Task 1:  
Add 'pay through online wallet' option  
  
Task 2:  
Integrate with PayPal API  
  
Task 3:  
Integrate with Paytm API
```

The status bar at the bottom of the window displays the following information: "Ln 3, Col 29", "100%", "Windows (CRLF)", and "UTF-8".

## Story Points Estimation Cheat Sheet

<b>How much is known about the task</b>	Everything	Almost everything	Something	Almost nothing	Nothing	Nothing
<b>Dependencies</b>	None	Almost none	Some	Few	More than few	Unknown
<b>How much work effort</b>	Less than 2 hours	Half a day	Up to two days	Few days	Around a week	More than one week
<b>Story Points</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>5</b>	<b>8</b> Should be split into smaller items	<b>13</b> Must be split into smaller items

To get story points - pick the column which represents your task the best. If it fits more than one column, pick higher one.
